

LYSO BOOST

1 Lt Contains:

Lysozyme - 100 000 mg

Vitamin C - 3000 mg

Vitamin E-Acetate- 2000 mg

Betaine hcl - 1000 mg

Oregano oil N.I. (Carvacrolo 650 mg thymolo 10mg) -1000 mg

Garlic oil (allicine 400mg) - 1000 mg

Thymol - 1000 mg

DOSAGE:

Broilers and Turkey:

In drinking water dosage:

30 ml/1000 chicken for 1st week

50 ml/1000 chicken for 3rd week

100 ml/1000 chicken for 5th week

Layers and breeders:

In drinking water dosage: 100 ml/1000 chicken

Cattle, calves, goats and sheep: 10-15 ml/day/Cattle via drinking water

5-10 ml per day / calves via drinking water

5 ml per day / sheep via drinking water

2 ml per day / lamb via drinking water

Fish & Shellfish: 150-200 ml mix with 1Lt water and spray onto 1 ton of feed.

Sanizoo s.r.l. Via Vicenza 132 - 36030 San Tomio di Malo (VI) Italy
Telephone: +39.0445.588050 Fax: +39.0445.588003

ADVANTAGES:

- Inhibition of the growth of Bacteria by breaking down the carbohydrates content of their peptidoglycan Cell walls
- Strong Immunity booster.
- Protection against intestinal diseases
- Reinforce the animal organism
- Balanced and beneficial GUT microflora
- Improved health and performance (higher villi and crypt depth)
- Reduces the negative impact of stress
- As supplementary therapy after vaccination or during antibiotic or therapeutic treatments

MODE OF ACTION

- **Lysozyme** breaks down the cell of harmful gram positive bacteria, releasing components of invading microbes that alert and activate additional immune factors
- **Vitamin E** is involved in a wide range of essential metabolic functions including the regulation of the carbohydrate, protein and fat metabolism, the resistance to infections
- **Vitamin C** too is involved in a great number of biochemical pathways. It increases resistance to infections and to stress of all kinds and promotes the formation and the function of collagenous tissues in skin, cartilage and bone.
- **Betaine** acts as a methyl donor. Involved in the synthesis of amino acids, creatine, carnitine and others. Important for the prevention of fatty liver syndrome.
- **Oregano oil, Garlic oil, Thymus oil**, carvacrol and thymol, stop the growth of several different types of bacteria and can also support the immune system and protect against toxins.

STANDARD PACKING: 1Lt, 25Lt, 200 Lt
