Description:

- Brewer's Yeast improves digestive tract performance and destroys mycotoxins, mainly aflatoxin, zearalenones and patulin (SCOTT, 1998)
- Essential acids for optimal operation of several physiological processes and destruction of harmful organisms, thereby enhancing growth of beneficial bacteria in the gastrointestinal tract.

Indications:

Sani-Tuxano is a combination of Brewer's Yeast with Vitamin B₆ (Pyridoxine), Ascorbic Acid, Ammonium Formate, and other essential ingredients, which combination is a powerful detoxifying agent as well as a growth promoter.

Sani-Tuxano performs the following processes:

- Mycotoxin detoxifying agent.
- Breakdown and/or detoxification of harmful compounds.
- Destruction of harmful organisms to allow maximum infusion of beneficial nutrients into the digestive tract.
- Production of nutrients, vitamins, and other growth factors which stimulate growth and beneficial microorganism reproduction in the gastrointestinal tract.
- Production and/or stimulation of enzymes.
- Stimulation of the immune system in the host animal.
- Acidifier activity (acids).
